

FINAL DESIGN AND RIGHT OF WAY ACQUISITION PHASE

The Final Design and Right of Way Acquisition Phase includes:

- Finalizing the design of roadways, structures and bridges, traffic control devices/intelligent transportation systems, and landscaping;
- Finalizing right of way and utility impacts, erosion and sedimentation plans, and utility design;
- Obtaining environmental permits;
- Holding the utility field inspection;
- Authorizing right of way and utilities (partial takes);
- Performing constructability, work zone, maintenance of traffic/transportation management plan reviews; and
- Holding the pre-advertisement conference team meeting.
