

INSERTABLE SHEETS

The Roadside Development Sheet may be accessed from the sheet2000.cel library in MicroStation.

- A-4 Roadside Development Sheet (RDSDEV)

The Erosion Control Summary Sheet may be accessed from the sheet2000.cel library in MicroStation.

- A-5 Erosion Control Summary Sheet (ECSUM)

STORMWATER MANAGEMENT

Quantities relative to stormwater management facilities are to be summarized in the appropriate summary or for the particular pay item (e.g.) drainage items in the Drainage Summary, earthwork items in the Grading Summary, erosion and sediment control items in the Erosion and Sediment Control Summary, etc.

DEMOLITION OF BUILDINGS AND CLEARING OF PARCELS

A Building Data Report lists buildings to be removed and parcels to be cleared and is furnished by the Right of Way Division, when applicable, for inclusion in the contract. Appropriate identification and description of the buildings are to be included in the summary. These summaries may be combined (See Figure 2G-2).*
