## MEMORANDUM

**TO:** Malcolm T. Kerley, P.E.  
Chief Engineer

**FROM:** Mohammad Mirshahi, P.E.  
Stormwater Policy Committee Chairman

A handwritten signature in black ink, appearing to read "Mohammad Mirshahi".

**SUBJECT:** VSMP General Permit for Discharges of Stormwater from Small  
Municipal Separate Storm Sewer Systems (MS4)

Attached is the Year 2 Progress Report for VDOT's MS-4 Program. The signature of the Commissioner is required on the certification form on page 2 of the report.

Information in this report regarding the year two accomplishments for each BMP was provided by the MS4 Steering Committee representative from each responsible Division. L&D reviewed all of the information for consistency and compiled it into one master report.

The MS4 General Permit requires that a Progress Report be submitted to DCR no later than 90 days after the end of each yearly permit cycle. The Year 2 cycle ended June 30, 2010. Because of delays in gathering all of the required information, we were not able to meet that date with a "signed" report. Based on discussions between Roy Mills and DCR staff, he has, today, forwarded a "draft" of this report to DCR with the understanding that the "final" report with the Commissioner's signature will be forwarded to them by October 15.

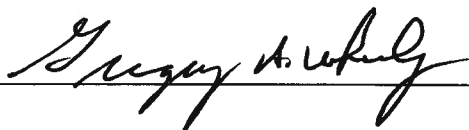

Please provide this copy of the report to the Commissioner for his review and signature on page 2. Once the Commissioner has reviewed and signed the report, please return it to Roy Mills so that the "final" report can be forwarded to DCR and copies can be made for internal distribution.
