

VIRGINIA DEPARTMENT OF TRANSPORTATION Scheduling and Contract Division Specifications Section

The **ROAD AND BRIDGE SPECIFICATIONS REVISIONS** were updated August 24, 2006.

These are the latest approved and processed special provisions and special provision copied notes for advertisements from September 2006 thru February 2007.

The major changes in this update (8-24-06) are mainly for the **November 2006 advertisement** forward. September and October proposals already developed should not be affected. Eventually, the goal is to post regular changes to the Revisions for a specific advertisement month on or near the beginning of the PAC Committee Review (**CUT-OFF DATE** column 4, approximately 4 months prior to the advertisement). Occasionally, much shorter notice may be necessary.

Please refer to the month-to-month "Pick Lists" to determine what may be used for each month's advertisement. These are included in the posted files and linked in the Table Of Contents. Each month's list has a naming convention of :

Spec book year/Advertisement month/Advertisement year (Example: 2002 English/November/2006 = _02NOV06.doc)

The "PDF" files on the [VDOT Website](#) have all the month-to-month "Pick Lists" included at the end of the document.

These SPECIFICATIONS REVISIONS are subject to change for any month on short notice. Please check the [Specifications Team Site](#) or the [VDOT Website](#) for the date of the latest changes.

"PDF" and Word@(zipped) format files may be found on the [VDOT Website](#) when the Web versions are completed by the Specifications section. They will be posted at <http://www.virginia-dot.org/business/const/spec-default.asp>

NOTE: The most convenient location for VDOT employees to obtain an individual special provision or special provision copied note in Word@ format is from the [Specifications Team Site](#) at <http://insidevdot/sites/SanC/specs/default.aspx?&PageView=Shared> via "  .

ALL **2002** BOOK REVISIONS (English) are on the VDOT Network at <\\0501COITD1\Const\Public\Specifications\MENU\RVLATEST\2002\02TOC.doc>

ALL **1997** BOOK REVISIONS (Metric) are on the VDOT Network at <\\0501COITD1\Const\Public\Specifications\MENU\RVLATEST\1997\97TOC.doc>

Server Locations

The Public Server at <\\0501COCONST\public\CNSP\DOCS> has been updated with a new WinZip@ file for the CNSP Program "Docs" folder titled "**082406RV.zip**".

The Spec_2 file at [\\0501COITD1\Spec_2\CTTB- REVISIONS TO SPEC BOOK](#) has been updated for the **PLAN REVIEW** and **ESTIMATING** sections' use.

Paper Distribution

Those receiving paper copies will receive them when printing has been completed. Paper copies are limited to only select personnel determined by the Specifications Section.

NOTE: This distribution was accomplished using a distribution list titled "**VDOT Specifications Revisions Recipients**" located in the Department's Microsoft Outlook Global Address Listing. We are attempted to reach as many as possible of those who will have to build or administer contracts directly to give them a "heads-up" on what they may have to work with in the near future. This list was basically compiled using a combination of existing Outlook global distribution lists and job titles found using the Outlook search feature. If anyone is missed they will be added to the list promptly as we are informed. Those working in the design or any of the earlier preliminary engineering stages will, for the most part, be notified through their division information/management sections (i.e. L&D - Engineering Services) that disseminate such information into instructions applicable to their individual needs. However, if any would like to be added to this distribution list please request this by E-Mail to: <mailto:David.Gayle@VDOT.Virginia.gov>.
