

VDOT 2001 Road and Bridge Standards
Section 700 - Geometric Design

Standard	Page	Title	Current Revision	Previous Revisions						Original Standard	Insertable Sheet
CS-1, 1A	701.00	Typical Method of Grading Side Slopes								2/01	
CS-2	701.01	Suggested Drainage Treatment at Beginning of Fills								2/01	
CS-2A	701.02	Typical Method of Grading Side Slopes								2/01	
CS-3	701.03	Typical Method of Grading Side Slopes								2/01	
CS-3A	701.04	Typical Method of Grading Side Slopes								2/01	
CS-3B	701.05	Typical Method of Grading Side Slopes								2/01	
CS-4	701.06	Typical Method of Grading Side Slopes								2/01	
CS-4A	701.07	Typical Method of Grading Side Slopes								2/01	
CS-4B	701.08	Typical Method of Grading Side Slopes								2/01	
CS-4C	701.09	Typical Method of Grading Side Slopes								2/01	
CS-4E	701.10	Typical Method of Grading Side Slopes								2/01	
GS-10	702.00	Minimum Design Criteria for Temporary Detour (Maintenance of Traffic)	9/06	3/03						2/01	
GS-11	702.01	Standard Shoulder Design for All Systems Except Local Roads and Streets	3/03	7/01						2/01	
GS-12	702.02	Standard Shoulder Design for Local Roads and Streets	3/03							2/01	
GS-13	702.03	Standard Graded Median Designs								2/01
