

FIGURE 6 – DETAIL BACK OF CURBS

I. PRIVATE ENTRANCES

1. Curb and gutter private entrances

The Standard CG-9D entrance gutter is to be used for most single family residential entrances with curb and gutter.

The Standard CG-9A and 9B entrance gutters should be considered only as a last resort in situations where the access into the property is too narrow to accommodate a Standard CG-9D, or if it is known that the lane adjacent to the curb will be used as a parking lane **AT ALL TIMES**.*

A special design entrance gutter shall be submitted to the District Engineer/Administrator's Designee for approval when roll top curb is used, similar to that shown in Figures 7 and 8.
