

SOUND BARRIER WALL

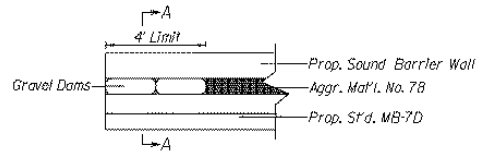

Detail is for Precast Traffic Barrier Service only.  
If Cast in Place or slip form method is used additional  
spacing between traffic barrier and sound wall will  
be required.

SPECIAL DESIGN GRAVEL DAM

A concrete gravel dam shall be placed at the beginning  
and the end of the median barrier so that the No. 78  
aggregate material is contained. The cost of the gravel  
dam shall be included in the cost of other items.
