

APPENDIX A

SECTION A-1-GEOMETRIC DESIGN STANDARDS

Introduction	A-1
Flexibility In Design	A-1
Secondary Project Improvements	A-2
Roadway Width	A-3
Design Speed (V).....	A-3
Operating Speed	A-7
Posted Speed.....	A-7
Design Waivers	A-8
Design Exceptions.....	A-8
Functional Classification.....	A-8
Lane/Shoulder/Pavement Transitions, Merging Tapers & Speed Change Lengths	A-10
Geometric Design Standards For Rural Principal Arterial System (GS-1).....	A-11
Geometric Design Standards For Rural Minor Arterial System (GS-2).....	A-12
Geometric Design Standards For Rural Collector Road System (GS-3)	A-13
Geometric Design Standards For Rural Local Road System (GS-4).....	A-14
Geometric Design Standards For Urban Principal Arterial System (GS-5).....	A-15
Geometric Design Standards For Urban Minor Arterial Street System (GS-6).....	A-16
Geometric Design Standards For Urban Collector Street System (GS-7).....	A-17
Geometric Design Standards For Urban Local Street System (GS-8)	A-18
Geometric Design Standards For Service Roads (GS-9).....	A-19
Geometric Design Standards For Interchange Ramps (GS-R)	A-20
Geometric Design Standards For Temporary Diversion (GS-10).....	A-21
Geometric Design Standards For Shoulder Design (GS-11).....	A-22
Geometric Design Standards For Shoulder Design For Local Road & Streets (GS-12).....	A-23
Geometric Design Standards For Graded Median Design (GS-13)	A-24

SECTION A-2-CLEAR ZONE/LATERAL OFFSET GUIDELINES

Introduction	A-25
Roadways With Shoulders	A-25
Roadways With Curb.....	A-26
Clear Zone Cost-Effectiveness Analysis	A-30
Embankment Slopes	A-31
Horizontal Curve Adjustments.....	A-32
Showing Clear Zones/Lateral Offsets On Typical Sections	A-33
Non-Recoverable Parallel Slopes	A-35

SECTION A-3-TRAFFIC BARRIER INSTALLATION CRITERIA

THIS INFORMATION IS NOW LOCATED IN APPENDIX I IN THE ROAD DESIGN MANUAL.
