

FIGURE C-1-10 PARKING SPACE ACCESS AISLE (502.3)

Width (502.3.1)

Access aisles serving car and van parking spaces shall be 60 inches (5 feet) wide minimum.

Length (502.3.2)

Access aisles shall extend the full length of the parking spaces they serve.

Marking (502.3.3)

Access aisles shall be marked so as to discourage parking in them.

Marking (Advisory 502.3.3) *

The method and color of marking are not specified by these requirements but may be addressed by State or local laws or regulations. Because these requirements permit the van access aisle to be as wide as a parking space, it is important that the aisle be clearly marked. For information on marking parking spaces, see Traffic Engineering Division Memorandum [TE-284](#).

Location (502.3.4)

Access aisles shall not overlap the vehicular way. Access aisles shall be permitted to be placed on either side of the parking space except for angled van parking spaces which shall have access aisles located on the passenger side of the parking spaces.

Location (Advisory 502.3.4)

* Rev. 1/15
